

## *Wedding Package's*

These are as I put it price guides and nothing more but please if you like my work contact me for a chat we can normally work something out to suit you. This is a unique record of your wonderful day I am present to record it and will not run the event or take up too much time.

A wedding album could be your only tangible item to remember one of the most important days of your life. Ensure those memories don't fade by choosing John Reynolds to photograph your special day.

Working in an unobtrusive style with the minimum of fuss, my aim is to ensure that you spend as long as possible with your guests and not waiting around whilst another large group is arranged. Typically between the ceremony and reception, formal photographs can be completed in around 30 minutes or less, dependant upon the exact requirements of the bride and groom.

The wedding day starts bright and early with bridal preparation and the only memory she will have, usually ending late in the evening as you and your guests dance the night away. That is why all wedding packages include a full days attendance. I only photograph one wedding per day and so you can be assured that I'll always be on hand at your wedding to capture all those special moments as they happen.
